Ms. Varalee Vanichsathien shareholder, asked the conclusion that please give more information about the company's business as a distributor in this region (Zone Distributor) about the radiation therapy. The company aims to create a specialized hospital for cancer treatment only or there are another services with kidney.

Mr. Sompong Chunekitiyanone, Chief Executive Officer, briefly explained that the company's business is solution provider for radiation therapy. The company provide to government and private hospital. In addition of the sale, the company also designed and installed the customer group is a large hospital as well as the main source of revenue is 3 parts as follow;

- Revenue from Sales (Products and equipment) that recognized revenue when delivered and installed successfully.
- Revenue from Services (Maintenance) that recognized monthly income every year.
- Revenue from Constructions that only construction projects at King Chulalongkorn Memorial Hospital, recognized by the proportion of completed work.

For the questions about why the company has to build a hospital to provide services by themselves. Because the customer group of the company is not customer every hospital. However, it is only a large hospital that the reason why the company to see growth opportunities. The number of radio therapy machine provided was not enough to increase the number of patients. This cancer patients are also increasing every year. If you know it soon, it can be cure. Most of the patients are about 50-60% must cured with radiation therapy. Currently, there are only 1 hospital in the eastern of Thailand that service in this regard. The company sees opportunities to expand its niche cancer business to that region. It focuses on radiation and chemotherapy. For the treatment of kidney, currently not in the plan. Because of the feasibility study of the project. The company conducted a study on cancer only. If it is possible and it increases business opportunities. It may be in the future.

Ms. Varalee Vanichsathien shareholder, asked the conclusion that the trading of the radiation machine to each hospital. What is anything to do for the hospital?

Mr. Voravid Silapusid, Chief Financial Officer, briefly explained that the radiation machine cannot plug in and use it. It is a complex technical machine that the company has over 20 years of expertise. In the industry against the radiation to treat this cancer are two brands in the world, another brand is the European country. In order to get

the projects, the company has to quotation and bidding such as Wattana Hospital is a customer of the company that choose the radiation machine of the company. By technical reasons of higher performance machines.

Ms. Varalee Vanichsathien shareholder, asked the conclusion that will the company sell radiation to hospitals in other neighboring countries?

Mr. Voravid Silapusid, Chief Financial Officer, briefly explained that the company was assigned by Varian to be a distributor in Thailand and Cambodia. If we have additional assignments, we will also be able to distribute to other countries. However, in each country there will be distributors.

Ms. Varalee Vanichsathien shareholder, asked the conclusion that the specialize hospital at Sriracha, when is it operated? How many models of the radiation machine and what kind of model which the hospital use it?

Mr. Voravid Silapusid, Chief Financial Officer, briefly explained that after about 14 months, it is expected to be completed. For the radiation machine, have started talking. However, it is not finalized to consider the model to be purchased. Radiation machine has many different models (about 4-5 models), depending on the option needs. For the price of the model starts at about 60-100 million Baht. The company is the distributor of accessories, radiometric quality and other related equipment.

Mr. Voravid Silapusid, Chief Financial Officer, briefly more explained that the Company has a vision and confidence in this business. Because cancer is still a disease that is killing people in high rank. So, the company. The company is believed that the business is still growing.

Mr. Therdsak Wangset, shareholder asked the conclusion that annual report page 25 informed about information radiation therapy hospital, may I know about trend of business prospect that remaining hospitals do not have radiation machine they will buy its all, or not?

Mr. Voravid Silapusid, Chief Financial Officer, briefly explained that the cancer treatment center by the radiation must include sciences and art. the cancer treatment center wants to use a physicist and medical techniques who has fewer people in this field. Many large hospitals are not ready to open this service. Because of rely on medical specialists, physicists, technicians and so many hospitals are not ready.

Mr. Sompong Chunekitiyanone, Chief Executive Officer, briefly more explained that radiation machine calculated that 500,000 patients per 1 machine. The current is not enough. In 1 year, 500 patients will be admitted to the machine, in each hospital with the radiation may be more than one machine, but it is not enough. But the purchase will depend on the availability of each hospital. The number of machines in the current is not enough. Therefore, the company meet a business opportunity so the company has to open a specialized hospital in Sriracha.

Mr. Therdsak Wangset, shareholder asked the conclusion that in case of private hospital and government hospital needs to buy more radiation machine or need to change new one. How the company manage that big order?

Mr. Sompong Chunekitiyanone, Chief Executive Officer, briefly explained that the company can manage big order both of the installation and the financial. By transferring the right to receive money to the bank. Financial risk of the company is relatively low.

Mr. Voravid Silapusid, Chief Financial Officer, briefly more explained that there are no problems with the company's financial support. The installation is divided into two parts: the preparation of the installation area and the installation of the machine which VARIAN will response about installation machine.

Mr. Sompong Chunekitiyanone, Chief Executive Officer, briefly more explained that currently, the orders are 4-6 orders per year, which the company is ready to carry out if more orders. However, depending on the budget of the public hospital and private hospital.

Mr. Supoj Auechailertkul, shareholder, asked the conclusion that the hospital project at Sriracha, it is an interesting project. How is planning in the future?

Mr. Sompong Chunekitiyanone, Chief Executive Officer, briefly explained that based on the feasibility study of the project, the IRR project is at 20.55% based on the installation of 1 radiation machine and the number of overnight beds for 30 patients in the hospital. If the future that the hospital is possible, the company will grow further. Due to space in the number of machines and patients can also be expand.

There were no further questions and comments. The Chairman thanked all shareholders for sacrificing their time to attend the meeting.
